**Please NOTE:**

We have had many comments that "my site isn't crafts or primitives and won't fit in with what you have"...

Our do your own website programs will work for almost anyone! While quite a few of our finished sites ARE country, crafty sites, we also have contemporary, victorian, jewelry, commercial candles, etc. A WHOLE range of types of sites. You will not be stuck in ANY type of category with your finished site. It will be a stand alone site and can be put into any category you wish anywhere on the internet as it is your site!!

*Debbie, I just wanted to thank you for working to get the picture loading problem fixed. I've finally been back to it again this evening and it is working beautifully. Your new and improved process really is improved. It is much easier to create the pages in this version. I've just about gotten all my original items loaded on this*

**for more info!**

Thanks Debbie for the info. I have never really said a big thanks to you for all of your help and patience during my website building. You were always so good to get back to me very fast with answers to all my questions. And all the times I couldn't figure something out you always helped me out. And, I want to say thanks for giving me the push to do the online ordering, because at first I wasn't going to have it online and you gave me that push to do it. Thanks so much!!! I love the webpages by me, being able to have control to take care of my own site. (I have changed things so many times, it is all a learning experience). I will highly recommend you to everyone I know. Thanks again, Sherry Wood, Ruffles & Lace

A new client had this to say about our graphics for her new Webpages by Me! site..  
I gotta say I'm so impressed with your customer care Debbie! You're really on top of things. -Kim

Although our Webpages by Me! is very easy to use, it will take time to setup your website, as it will also take time for you to maintain it on your own. Would you rather use the time you have to develop your products and run your business without the worry? If you would prefer to have a website created and maintained for you professionally, you can have Moon & Stars Web Designs do the work **for** you, just stop by the Moon & Stars Web Designs site or MNS Webdesigns site for more information.
